### Description

#### What is the course about?

Luxury consumption has garnered significant attention in the marketing and business field over the last two decades. This is due to luxury's emergence as an experiential category in modern societies and the growth of the economic sector since the 1990s. This course is designed to leverage decades of practice and research on experiential marketing to explore the customer experience in the luxury sector. Rather than focusing on luxury as an essential quality of a product, service, or lifestyle, this course frames luxury as an experience characterized by emotions resulting from consumption. The aim is to introduce luxury as a specific type of experience that is both desirable and unnecessary.

In this course, learners will delve into the world of luxury and gain a deeper understanding of what it takes to design the ultimate luxurious experience, whether it be in a physical setting like a high-end hotel or a luxury boutique, or in a

The course will provide a comprehensive overview of customer experience issues and explore effective experiential strategies that luxury brands can use to provide the most exceptional luxury experience for their customers. ## What will you learn?

Luxury consumption experiences are all about living the consumption activity as the embodiment of a lifestyle, treating brand elements as sacred, and personalizing products through rituals. This approach will provide learners with a more practical understanding of customer experience in the luxury sector by answering key questions such as: What does luxury experience mean? How can we structure and build luxury experiences online and offline? And what kind of tools might be used to measure it? Insights into international luxury brand managers, examples, and case studies will be used to support this course. Topics covered will include:

- Tracing the roots of luxury and luxuries
- How luxury has transformed from a mere possession to an experience
- Reconsidering luxury marketing to prioritize luxury experiences
- Viewing luxury consumption through a customer experience lens
- The intersection of luxury and experiential marketing
- Tools for crafting luxury experiences with a human touch

Although this has never happened before, we believe it's important to inform our participants about the possibility of such an occurrence.

We want to make sure that our learners are aware that our AIBXD programs are in high demand. We want to provide the best experience possible for our learners, which can be costly in terms of organizing venues, personalized welcome kits, and booking VIP speakers and CEOs with busy schedules. As a result, we have a strict cancellation policy in place, even for unforeseen circumstances. We hope that our learners understand and can plan accordingly. Here are some guidelines to keep in mind:

- a) Cancellations can be made for a full refund within 3 business days of initial registration. The link to register and pay the full program fee will be sent on the same day as the decision notification. Requests for exceptions outside of the 3-day period will be considered on a case-by-case basis.
- b) Due to program high demand and preparation, cancellations received after 3 business days of initial registration are subject to full payment of the program fee.
- c) In order to receive a full refund and cancel a program, the registrant must send a written request to [info@aibxd.com](mailto:info@aibxd.com) within 3 business days of registering.
- d) Registrants may transfer to another date of the same program by submitting a written request to [info@aibxd.com](mailto:info@aibxd.com) up to 3 business days before the program start date. If the requested program is sold out, the registrant will be placed on the waitlist.
- e) Our cancellation policies will be reviewed on a case-by-case basis and may be modified for exceptions related to organizational changes or policy updates.
- f) We kindly advise you to take a look at our Terms and Conditions, as they can provide helpful guidance for using our services.

- **Do you have policies in place regarding privacy and copyright for your programs?**

It is absolutely crucial to understand that at AIBXD, we hold intellectual property and privacy in the highest regard for both our instructors and learners.
